Delicate decision
Believe it or not, Botox has become a part of some brides' wedding preparations. According to cosmetic surgeon Dr Anoop Rastogi, Botox is invaluable for weddings, and not just for its traditional use of smoothing out lines. It's now also being injected into the armpits to stop sweating on delicate gowns which ruins expensive fabrics.
Costs: From \$500.
Lasts: Up to three months.
Call: Dr Anoop Rastogi (02) 9362 1426.

Floral fantasies

You'll finish your wedding look perfectly with a stunning arrangement of flowers.
Love it: Saskia Havekes from Grandiflora says big, trailing bouquets are in fashion. Girls are also adding a pretty detail, such as a brooch, to the handle of their bouquets, while others are attaching a single large bloom to their wrists.
In full bloom: In terms of flowers, mixed bouquets are back, while arrangements of freesias, hyacinths and small orchids are also very popular with brides.
Call: Grandiflora (02) 9357 7902.
